Father DARKLEAF'S Column

By C. H. R. E. A. Cole, the efficient and popular assistant at the local post office, served in the American army down in Mexico in Pershing's expedition in 1912. He relates that Pershing had a habit of calling everybody "John". Said the fellows were all devoted to him and felt much more at ease around the general than they did around a second lieutenant.

Lewis McDearmon, who has a rather nimble flair for bon mot, suggests a theme song for 1932 graduates: "Time on My Hands." . . .

It might also be: "Out of the Dust." "Drifting and Dreaming." . . .

Whatever else the fact that Virginia's Congressmen, with the exception of our good friend Mack Landon, are opposed to re-election means, it is a savings of \$25,000. Elections would have cost that much.

Personal nomination for consistent writer of most readable copy in Virginia: A. Judson Evans, of the T. D. And incidentally an old college-mate of ours.

Wright says tide water men should control the state's oyster industry. Pollard says no. Well, with an engineer running the national government and a vaudeville star running the city of New York, we might go ahead and get mountain men to run the oyster business and call in a clammer to lead our tobacco association and push a trading in Byrd's apple business. Traders in vacation in a storm is one way of being audacious.

What with all our home troubles they now tell us that we need several hundred thousand dollars to help our foreign mission work. "Yeah," says the most know about depressed gangster America and how wonderful it is to be a Christian country. Why not send a few missionaries to replace the lobbyists in Washington?

While our delegates are down at Richmond lauding Harry Flood Byrd and getting up a party platform, Mr. Father Darkleaf suggests a few planks. We have them sure vote-getters:

1. We pledge our party to improve radio program, cutting down on crooners and blabber about somebody's body odor or throat.

2. We favor a law forbidding theatres to take up half the program telling about "next week's picture."

3. We condemn bridge championship matches, sex lectures, commissions to study this, that and everything; the Congressional Record. Al Capone's picture in the paper and par-ture of Huey Long.

4. We favor develop a native American to win back the heavy-weight championship.

5. We want more baseball games broadcast.

6. We stand foursquare for a free aspirin with a coconuts.

7. We promise to abolish foreign names and promise to bring back old-fashioned plain foods and have less tawdry dishes.

And now just before I go, there comes a letter from Dick telling all about his garden, chickens and such and that's followed by a telegram to know why I don't write. Gee, he never had to get out a newspaper. All of which reminds me that June 19 is Father's Day.
